OBJECTIVE SUMMARY

A motivated and detail-oriented MERN Stack Developer with hands-on experience building responsive, visually engaging front-ends and scalable full-stack applications using MongoDB, Express.js, React.js, Next.js and Node.js. Also experienced in WordPress & WooCommerce development. Passionate about turning design ideas into clean, functional, production-ready web experiences and eager to contribute to a professional development team.

PROJECTS

Doctor Appointment Booking Website — *In Progress*

React.js · Next.js · Email Integration

- Multi-step appointment booking flow: Service selection, Basic Info, Date & Time, Appointment Type, Payment and Confirmation.
- Booked appointment details are captured and sent directly to the clinic's Gmail inbox; currently integrating the backend email-notification logic.
- Responsive, step-based UI built with React.js and Next.js focused on a smooth booking experience.

Nurfia — Full Stack Fashion E-Commerce

HTML · CSS · JavaScript · Vite · Node.js · Express.js · MongoDB · Cloudinary

- Full stack fashion e-commerce app with a Node.js/Express backend and MongoDB database.
- Live product search, wishlist, cart functionality, and login/register with JWT authentication.
- Admin panel with full CRUD and product image uploads via Cloudinary.
- Live deployed on Vercel (frontend) and Bonto (backend).

Landlinger — SaaS Landing Page

React.js · Vite · Tailwind CSS · Framer Motion

- Developed a responsive SaaS landing page from scratch with a cohesive visual identity.
- Built with React + Vite for fast performance, Tailwind CSS for styling, and Framer Motion for scroll-based reveal animations across Hero, Pricing, Testimonials and Contact sections.

Mantu — E-Commerce Store

HTML · CSS · Bootstrap 5

- Fully responsive e-commerce store built with Bootstrap 5.
- Clean product layout and responsive grid structure.

SemantiQhub — Business Website

HTML · CSS

- Clean, responsive single-page business website with semantic markup and structured layout.
- Converted from Figma design to code with pixel-perfect accuracy.

WordPress E-Commerce Website

WordPress

- Fully functional e-commerce website with product listings, cart, and checkout flow.

Personal Portfolio Website

HTML · CSS · JavaScript

- Portfolio with a projects slider, working contact form (Netlify Forms), and mobile-responsive layout.

PREFERENCES

Open to remote full stack (MERN) or frontend development roles with opportunities for growth and productivity.
